

POLYURETHANE GOLF CLUB INSERTS

ABSTRACT

An insert for a golf club, wherein the insert is formed of a polyurethane composition  
5 comprising a prepolymer comprised of a polyol and a polyisocyanate, and a curing agent; and  
wherein the polyisocyanate is selected from the group consisting of 4,4'-diphenylmethane  
diisocyanate, polymeric 4,4'-diphenylmethane diisocyanate, toluene diisocyanate, 3,3'-dimethyl-  
4,4'-biphenylene diisocyanate, *p*-phenylene diisocyanate, 4,4'-dicyclohexylmethane diisocyanate,  
and isophorone diisocyanate.
